

CalderaRIP v12

Still using Version 9? Check-out what features you're missing!

If you are still using Version 9, you are missing out on the many new features designed to help Caldera users gain in productivity, save time and increase their profitability.

APPE 5

V12 harnesses the full power of APPE 5 to create even smoother shades and smoother gradients than previous versions, improve layer management and extend spot color handling.

Digital Licences

Digital Licences is a new flexible licensing system that, via the Caldera Workspace interface, gives access to new products and features faster and more easily. It allows users to digitally migrate licenses onto other sites and computer stations

CalderaDock

Save and restore all your configurations in one click!

CalderaDock is a new, highly intuitive, user-friendly application that can be launched from within the RIP to access Caldera websites, tools and applications.

Optimized Repetition

Advanced Step&Repeat features include the ability to specify the dimensions of the page sheet for optimized repetitions and allows the nesting of blocks of images created with Step&Repeat.

Bleed Management

Canvas without PrintBleed

Canvas with PrintBleed

Printbled to avoid white space around stickers after cut

PrintBleed's pixel cloning and contour duplication technology expands print areas by replicating pixels for adhesive and canvas applications.

Advanced Tiling Capabilities

Tiling+ now gives you the ability to merge/split/disable tiles to create non-uniform tile shapes, address more applications and save time in pre-press.

Simplified Grommet Addition

Version 12 users can add grommets directly from the Print Module.

Automatic Notifications

Online notifications tells the user when an update or driver release is available.

QR Code Addition

QR Codes can be added at the end of the job with tags.

New Included Options

Contour Nesting and Tex&Repeat are now included as RIP features.

Printing Presets

QuickPrint enables you to use the printing presets as simple workflows.
