

Ink Optimization InkPerformer

CALDERA 

Save up to 25% ink

InkPerformer is an optional ink-saving module for CalderaRIP. No need to redo your ICC profiles to save ink! Once activated, InkPerformer automatically calculates a new color combination to reduce the amount of ink printed on the substrate.

Fast and intuitive, InkPerformer improves your color rendering while reducing your production costs.

Features

- ✓ Choose from 4 levels of ink savings
- ✓ Calculate your ink costs
- ✓ Simulate and compare your ink consumption before printing
- ✓ Save your InkPerformer settings in your print configurations to save time

Benefits

- ✓ Print more accurate colors
- ✓ Print more, with less ink
- ✓ Reduce costs and increase margins
- ✓ Reduce your environmental impact

Print more accurate colors

Do your grayscale images look reddish, bluish or yellowish?

Thanks to Dynamic Maximum Black technology developed by our partner Alwan, InkPerformer adjusts the use of black ink to reduce this effect and achieve better renderings. Print more neutral blacks and grays while saving ink.

InkPerformer can be deployed on an unlimited number of printers but is sold per printer driver. Contact us for more information.

Increase your margins

Use InkPerformer to calculate ink consumption for the same job with and without the module. Compare ink savings and estimated costs for each job!

Without InkPerformer

Job	Colors	Settings	Printer	Media	History
		Usage		Cost	Ink+Media
		Cyan		0.21 ml	0.04 Euro
		Magenta		0.83 ml	0.14 Euro
		Yellow		1.78 ml	0.30 Euro
		Black		1.48 ml	0.25 Euro
		Orange		0.82 ml	0.14 Euro
		Red		0.65 ml	0.11 Euro
		Light Cyan		1.96 ml	0.33 Euro
		Light Magenta		3.02 ml	0.51 Euro
		Light Black		1.17 ml	0.20 Euro
		Total		11.92 ml	2.03 Euro
		Media		1.01 m²	2.02 Euro

4,05€

With InkPerformer Maximum mode

Job	Colors	Settings	Printer	Media	History
		Usage		Cost	Ink+Media
		Cyan		0.02 ml	0.00 Euro
		Magenta		0.10 ml	0.02 Euro
		Yellow		0.67 ml	0.11 Euro
		Black		1.83 ml	0.31 Euro
		Orange		0.56 ml	0.10 Euro
		Red		0.47 ml	0.08 Euro
		Light Cyan		0.84 ml	0.14 Euro
		Light Magenta		1.52 ml	0.26 Euro
		Light Black		2.36 ml	0.40 Euro
		Total		8.37 ml	1.42 Euro
		Media		1.01 m²	2.02 Euro

3,44€

Average ink savings with InkPerformer

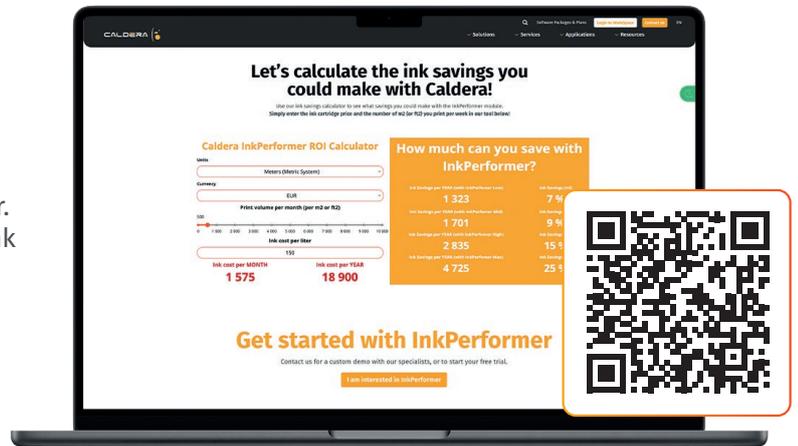

FORMAT (INCHES)	FORMAT (CM)	Ink savings "LOW" mode	Ink savings "MEDIUM" mode	Ink savings "HIGH" mode	Ink savings "MAXIMUM" mode
24 x 36	60 x 90				
27 x 40	70 x 100	7%	9%	16%	25%
40 x 60	100 x 150				

Calculate your return on investment with InkPerformer

Reducing your production costs has never been easier. Use our online calculator to discover your potential ink savings!
